

Jetsadakorn Muangwichit

Frontend-Focused Full-Stack Developer

Phra Nakhon Si Ayutthaya, Thailand | 081-079-6546 | 7sadakonr@gmail.com

Portfolio: 7sadakonr.xyz | GitHub: github.com/7sadakonr

Professional Summary

Final-year Computer Science student focused on frontend and full-stack development, with hands-on experience building project-based web applications across user interface design, database integration, authentication, real-time features, and AI-assisted capabilities. Proficient in React, Next.js, TypeScript, Supabase, and PostgreSQL, with a strong focus on accessibility, security, and performance.

Core Skills

Frontend:

React, Next.js, TypeScript, JavaScript, Tailwind CSS, Responsive UI, Accessibility

Backend & Data:

Supabase Auth, PostgreSQL, Row-Level Security, Node.js, REST APIs

Real-Time & AI:

WebRTC, Pusher Channels, Google Gemini API, TensorFlow.js, COCO-SSD

Development:

Git/GitHub, Pull Requests, Testing, Performance Optimization, Vercel, Figma

Selected Projects

Nyeta - Real-Time Visual Assistance Platform

- Built a platform connecting users with volunteers through video calls, with Gemini-powered image descriptions, document reading, sign and in-browser object detection, plus voice, haptic, and screen-reader support.

Core technologies: Next.js, React, Tailwind CSS, Native WebRTC, Pusher, Google Gemini, TensorFlow.js, COCO-SSD

Zendix - Peer-to-Peer Messaging and File Transfer

- Built a browser-to-browser messaging and file/folder transfer app using WebRTC, with no server-side file storage. Implemented chunked transfers, multi-file queues, live speed/progress indicators, QR pairing, and PWA installation.

Core technologies: React, Vite, WebRTC/PeerJS, Zustand, Tailwind CSS, Vitest, PWA

Integrated Task Management - Security-Focused Todo Application

- Developed a full-stack task manager with Supabase Authentication, CRUD operations, a dashboard, and drag-and-drop status updates. Secured user data with PostgreSQL RLS and checked compromised passwords using k-anonymity.

Core technologies: Next.js, React, TypeScript, Supabase Auth, PostgreSQL, Row-Level Security, Tailwind CSS

Personal Portfolio - Interactive Portfolio Website

- Designed and developed a responsive, space-themed portfolio with custom CSS effects, smooth navigation, interactive project showcases, and a contact form; improved load times with lazy loading and WebP assets.

Core technologies: React, TypeScript, Vite, React Router, Lenis, EmailJS, Custom CSS, Vercel

Education

Bachelor of Science in Computer Science

Rajamangala University of Technology Suvarnabhumi, Huntra Campus

2023 - Present | Cumulative GPA: 3.23
